EDUCATIONAL BACKGROUND

University Of Mumbai

Bachelor's Of Management Studies, Specialization in Finance,

Graduated in 2023

Research Project Work -

I successfully conducted an independent research project in the last year of my college on cryptocurrency knowledge among residents of Dombivali Area, utilizing Google Forms for comprehensive surveys. This project not only honed my research and analytical skills but also provided valuable insights into public understanding and perception of cryptocurrency within a localized community.

PROFESSIONAL SUMMARY

As a Financial Accountant with one year of experience. I have developed my skills in accounting administration, business accounting, and risk analysis. I have contributed to finance, collections, financial reporting, and auditing, enhancing the financial health of the organizations I've worked with. Committed to continuous learning, I actively seek opportunities to further develop my skills to better serve my employers.
